Industrial Manufacturer of Sanitary Valves

Purpose: They should describe a company's path (and therefore become a tool dedicated to the public and the future) while summarizing its philosophy (as an internal instrument used to analyze and evaluate the recent past). This new story collects the products that Alborzrooz has created to satisfy people's needs and promote the idea of the bathroom itself as well as the care for ourselves and others.

It represents a commitment driven by the desire to investigate the multiple aspects evoked by this type of items.

Our products become one with the architectural elements but inspired by the human bodies occupying the space, objects providing a precious resource such as water, giving it strength and embodying its powerful symbolism.

We are excited about the outcome confident that the users leafing through this catalogue will be contaminated by such enthusiasm.

A large, dark, monolithic structure stands prominently against a bright, radial background. The structure has a rectangular base, a central vertical column, and a horizontal arm extending from the top left. A bright beam of light emanates from the top of the central column. The entire scene is set upon a dark, textured, rocky base.
